

Annual Results & Operating Review

Synthetic internal management extract with public benchmark references

Headline indicators

Metric	FY24	FY25	FY26	Interpretation cue
Revenue (USD m)	1669.6	2167.9	2826.4	Growth remains high
GAAP Gross Margin %	75.2	74.5	73.0	Margin compression
Operating cash flow (USD m)	380.4	603.1	716.8	Cash generation rising
Large customers	315	376	438	Enterprise mix expanding
Net retention %	121	124	126	Existing-customer expansion
Network traffic (PB/s)	4.75	5.08	5.54	Traffic growth
Operating margin (normalized) %	23.6	22.1	19.3	Synthetic management view

Management observations

- Application Security remains the largest revenue contributor.
- Developer-platform growth requires significant edge compute capacity.
- Network investment is increasing faster than traffic in several regions.
- The board has requested a project-level return review before the next capital cycle.

Source note

FY25 headline revenue, gross margin, operating income and cash-flow figures are aligned to Cloudflare's public FY2025 results. FY26 internal figures in this game are synthetic and should not be treated as public guidance.
