

Procurement & Expense Coding Manual

Synthetic internal control memo

Required fields

Every internal spend item is identified by Transaction ID, Vendor ID, Project Code, PO Number, Cost Center, Site Code and Category. Large purchases may be split into multiple lines.

Code	Example	Purpose
Project	EDGE-47	Strategic investment
Vendor	V-017	Supplier master key
PO	PO-EDGE-2026-17	Purchase order
Site	FRA-04	Operational receiving point
Region	EU-CENTRAL	Regional roll-up

Investigator rule

- Do not treat the largest transaction as automatically material.
- Vendor ID + PO Number should be used together when tracing a purchase.
- The ledger intentionally contains ordinary operating noise.
