

Network Expansion & Deployment Tracker

Synthetic infrastructure program review

Project	Budget USD m	Actual Spend USD m	Completion %	Region	Expected Capacity Gain
EDGE-47	580	835	64	EU / UK	+420 GB/s
NET-31	420	510	81	EU / US	+310 GB/s
ZT-22	360	402	72	APAC	+225 GB/s
R2-18	290	318	69	US	+180 GB/s
CDN-64	310	355	77	LATAM / US	+160 GB/s
TEL-09	180	224	59	India / Singapore	+140 GB/s
GPU-52	240	276	41	US-East	+95 GB/s
WAF-73	195	208	84	US	+70 GB/s

Deployment observations

- EDGE-47 is the largest project in the synthetic portfolio.
- FRA-04, TYO-06 and BOM-11 have the strongest combined operating-risk signals.
- TEL-09 has a cross-border procurement trail.
- Capacity additions do not automatically imply proportionate return.
