

Enterprise Customer Portfolio Review

Synthetic strategic-account pack

Concentration and retention

The enterprise portfolio is intentionally concentrated enough to make customer economics relevant to the board discussion. Calculate concentration from the dataset rather than relying on the narrative.

Account	Revenue USD m	Retention %	Risk	Primary Products
ACCT-001	108.4	98.0	Low	Security + Network
ACCT-002	94.6	91.3	Watch	Zero Trust
ACCT-003	87.8	97.1	Low	Application Security
ACCT-004	79.2	82.8	High	Developer + Network
ACCT-005	68.4	86.2	Watch	Performance + Storage

Customer signals

- ACCT-004 has the largest retention decline among the top five.
- Developer Platform appears in multiple expansion-risk accounts.
- A separate channel dataset contains non-enterprise revenue.
