

Engineering & Reliability Productivity Review

Synthetic people and delivery review

Function	Headcount Growth %	Incident Load Growth %	Release Delay Days	Attrition %
Engineering	18	31	3.2	12.8
SRE / Network	21	46	4.7	14.9
Security Research	14	18	2.1	16.8
Support	9	7	1.3	11.7

Management notes

- Network workload is growing faster than headcount in the current model.
- Reliability staffing should be read alongside traffic, site utilization and incident load.
- R&D; spend and people productivity should be examined together.
