

Procurement & Controls Memo

Internal operating memo

Procurement rules

- All strategic purchases must carry a project code and PO number.
- Cross-border specialist equipment requires vendor-country verification.
- Transactions above EUR 50m equivalent require a secondary approver.
- Project codes are reused across procurement, capex and operations schedules.

Trace key

Look for a payment with project code AT-41 and a specialist finishing/atelier equipment description. The transaction is not the largest line in the ledger, but it is the cleanest bridge into the vendor master and expansion tracker.

Reference codes

Code	Meaning
AT-41	Atelier Capacity Program
OM-27	Omnichannel Maison Experience
BX-19	Boutique Network Renewal
MKT-27	Market Dataset
SEG-LG	Leather Goods
